

Grants by Grant Cycle

Grants matching your search for **2012-13 Household Hazardous Waste Discretionary Grants (HD20)**

Colusa County

Grantee: Colusa County

Amount Awarded: \$35,000.00

Grantee Contact: Mr Michael Azevedo

CalRecycle Grant manager: Matthew Fong

Project Summary: HHW Collection.

Colusa County routinely accepts universal waste; however we currently lack the resources to conduct regular HHW collection

Total Awarded for County:\$35,000.00

Glenn County

Grantee: Glenn County

Amount Awarded: \$75,000.00

Grantee Contact: Mrs.Di Aulabaugh

CalRecycle Grant manager: Matthew Fong

Project Summary: The proposed project will include two Household Hazardous Waste (HHW) collection events, which give the residents of Glenn County the opportunity to properly dispose of the numerous HHW items that our facility currently does not except. The collection events will be contracted out to a private company and will be setup on separate dates to maximize the amount of access the public has to these events. The training seminars will ensure that our faculty is prepared and as knowledgeable as they can possibly be relating to the handling of HHW. The repairs to the facility will help keep the useable life of the building as high as possible and protect environmental factors from effecting the storage of HHW.

Total Awarded for County:\$75,000.00

Humboldt County

Grantee: Humboldt Waste Management Authority

Amount Awarded: \$65,000.00

Grantee Contact: Mr. Brent Whitener

CalRecycle Grant manager: Linda Dickinson

Project Summary: Grant funding will be used to hold three temporary HHW collection events in underserved areas of Humboldt County, purchase PPE and other operational equipment used at the fixed facility and at our mobile collection events, and increase the education and outreach component of the HHW program that will result in increased awareness and participation.

Total Awarded for County:\$65,000.00

Lake County

Grantee: Lake County

Amount Awarded: \$30,825.00

Grantee Contact: Kati Galvani

CalRecycle Grant manager: Linda Dickinson

Project Summary: A program is to expand the Lake County paint recycling program with the franchise haulers servicing Lake County. Currently residents may drop off unwanted paint 12 times a year at the HazMobile events. The new program would allow residents to drop off (during daily business hours) at the 2 established recycling centers operated by the County's franchise haulers or pick up recycled paint most anytime the availabilities last.

Total Awarded for County:\$30,825.00

Lassen County

Grantee: Lassen Regional Solid Waste Management Authority

Amount Awarded: \$59,935.00

Grantee Contact: Mrs.Paula Wesch

CalRecycle Grant manager: Matthew Fong

Project Summary: To provide a one day Household Hazardous Waste collection event to the residents of Lassen County and provide an 8 hour HAZWOP refresher course to LRSWMA Staff. The last full HHW collection event was 7 years ago. Since then, because of the cost of collection events, LRSWMA has only been able to provide partial HHW collections of antifreeze, batteries, used oil, oil filters and paint. Collection is also provided for Ewaste, Uwaste and Fluorescent Tubes.

Total Awarded for County:\$59,935.00

Los Angeles County

Grantee: City of Culver City

Amount Awarded: \$22,000.00

Grantee Contact: Mr Charles Herbertson

CalRecycle Grant manager: Harnak Samra

Project Summary: Culver City provides one day event collection services of unwanted household hazardous waste and e-waste items.

Currently the City works with community partners to provide the service. The City of Culver City works Los Angeles County as well and we strive to make it easy for residents to participate. We ask they leave the products in their original container, place them in a cardboard box and drive to the "Roundup" site. The entire process only takes a few minutes and cars pass thru a standing line easily. Residents never have to leave their car. No explosive or radioactive materials, tires are accepted.

A local business hosts the roundup and promotes to residents as does the city thru typical avenues of marketing. However the marketing and informational pieces available to distribute is minimal

We would like to have some more lasting educational material to provide to schools and community groups to keep the message of HHW disposal in the forefront of discussions when talking about refuse

The City of Culver City would like to expand this program to more events thru out the year. The City would also like to create some marketing educational pieces to promote proper handling of Household Hazardous Waste. This would include a school educational piece that teachers can use to promote events in the community and a video marketing piece that gives information on how best to handle these types of waste in the home.

Grantee: City of Lancaster

Amount Awarded: \$11,897.00

Grantee Contact:

CalRecycle Grant manager: Harnak Samra

Project Summary: The City of Lancaster responds to over 835 complaints a year with regards to HHW being illegally disposed along the Public Rights of Way or on Public lands. The City of Lancaster is requesting funding to expand their HHW collection activities in order to provide the public with the safe and secure disposal of HHW. In recent years, the City has received enormous support from the public with regards to offering temporary one day Public HHW events. By providing these temporary HHW events, the City of Lancaster will be able to educate the public on the proper disposal of HHW, reduce illegal dumping, and support a program that creates a positive impact within the community. The City of Lancaster plans on using the funds to conduct 3 temporary HHW collection events where trained staff will assist the public in the safe and secure collection of HHW waste; purchase a Pre fabricated hazardous material storage unit for the collection of hazardous waste, and utilize funding to provide public outreach and education to the community through flyers, banners, advertisements, and a HHW educational website.

Grantee: City of Santa Monica

Amount Awarded: \$50,000.00

Grantee Contact: Mr. Wes Thompson

CalRecycle Grant manager: Harnak Samra

Project Summary: The City of Santa Monica through its Office of Sustainability and the Environment (OSE) intends to develop a two year outreach and education program informing residents of the upcoming transition in the HHW program from a drop-off facility to a home collection service. Funds will be utilized to develop four direct delivery newspaper mailers and two community re-use workshops. The community workshops will be organized in collaboration with a local artist who currently utilizes latex paint from HHW facility to raise awareness about environmental issues. The added publicity will help to increase participation in the home collection service while providing an opportunity to educate the community about safe handling practices, toxics use reduction, and materials reuse.

Total Awarded for County:\$83,897.00

Marin County

Grantee: Marin County Hazardous and Solid Waste Management Joint Powers Authority

Amount Awarded: \$75,000.00

Grantee Contact: Mr. Steve Devine

CalRecycle Grant manager: Linda Dickinson

Project Summary: The Marin County Hazardous and Solid Waste Management Joint Powers Authority (JPA) is submitting this application for \$75,000 in HD20 Grant Funds to do a one time postcard mailer to all 111,541 households in Marin. The grant funds will pay for design work, printing and mailing of the postcards, which will include creative messaging that will emphasize less toxic alternatives and smarter buying to help limit the amount of hazardous and universal wastes consumed in Marin and processed at our Household Hazardous Waste facilities.

Total Awarded for County:\$75,000.00

Mono County

Grantee: Mono County

Amount Awarded: \$14,092.00

Grantee Contact: Mr. Tony Dublino

CalRecycle Grant manager: Matthew Fong

Project Summary: To construct improvement at existing HHW facility to appropriately store Treated Wood Waste before transport. To complete HAZWOPER refresher course. To provide outreach and conduct three community HHW events and provide support for mobile HHW pickup at those events.

Total Awarded for County:\$14,092.00

Monterey County

Grantee: Monterey Regional Waste Management District

Amount Awarded: \$9,670.00

Grantee Contact: Jeff Lindenthal

CalRecycle Grant manager: Ashraf Batavia

Project Summary: Drawing on over 60 years of operational success, the Monterey Regional Waste Management District (MRWMD) proposes to implement the Monterey Regional Door-To-Door Collection Project to enhance and improve Household Hazardous Waste (HHW) collection services throughout their Monterey Peninsula service territory. Serving a population of approximately 170,000 residents and 50,000 households, MRWMD has operated an innovative and award-winning HHW program for nearly three decades. However in recent years, declining participation rates, reduced collection volumes and diminishing revenues, combined with a uniquely vulnerable environmental landscape and distinctive demographic conditions, makes the need for improved HHW collection especially compelling. The proposed project is designed to maximize cost effectiveness while generating positive outcomes including the collection of an estimated 35,747 pounds of materials from 600 underserved households, and yielding essential data to guide and inform future program efforts. At a time when the agency is facing possible reductions in existing service levels, critical grant funding is requested to support the set-up and operation of innovative door-to-door collection events buoyed by public education and outreach, as a valuable complement to the region's existing HHW program. Without the necessary contribution of requested grant funding, such enhanced services will not be possible. The project is supported by the MRWMD's eight member agencies, as well as a broad group of community stakeholders, as evidenced by the Board of Directors Resolution and several attached letters of support submitted with this proposal. The lessons learned through the proposed project will directly influence future program design, delivery strategies, and the identification of sustainable funding mechanisms to ensure that Monterey Peninsula residents continue to benefit from convenient, safe and effective HHW management services protecting public and environmental health of the region for the long-term.

Thank you! - On behalf of the Monterey Regional Door-To-Door Collection Project team, MRWMD respectfully thanks the evaluation committee for your time and attention in reviewing this proposal.

Grantee: Salinas Valley Solid Waste Authority

Amount Awarded: \$63,444.00

Grantee Contact: Ms. Jenny Mitchell

CalRecycle Grant manager: Ashraf Batavia

Project Summary: The Salinas Valley is a rural agricultural valley in Monterey County with five major cities: Gonzales, Greenfield, King City, Salinas, and Soledad. The Salinas Valley Solid Waste Authority (Authority) is a Joint Powers Authority representing the five cities and the unincorporated area of eastern Monterey County. The Authority's mission is to manage Salinas Valley solid waste as a resource, promoting sustainable, environmentally sound and cost effective practices through an integrated system of waste reduction, reuse, recycling, innovative technology, customer service and education. Procuring HHW Grant funding is consistent with the Authority's mission, vision, values and diversion goals.

Currently, the Authority operates one HHW facility at Sun Street Transfer Station, located in Salinas and two ABOP (Antifreeze, Batteries, Oil & Paint) collection stations at Jolon Road Transfer Station, located in King City and Johnson Canyon Landfill, located in Gonzales. The Sun Street HHW facility is the only full-service HHW facility in the Authority's jurisdiction, therefore, residents from the rural areas of North and South County must rely on annual HHW cleanups or drive a minimum of 30 minutes up to 2 hours to access the Sun Street facility to properly dispose HHW materials. Lower than average participation rates in the current HHW program reflects the need for expansion of services to the Authority's entire jurisdiction.

The Authority seeks grant funding for 63 (3 per month for 21 months) individual collection events over the grant period. Events will be held at Crazy Horse Landfill, Johnson Canyon Landfill and Jolon Road Transfer Station. A temporary, part-time employee will be hired to operate each event and Philip Services Corporation (PSC) will properly dispose of all HHW collected. For monitoring and evaluation purposes, participants will be surveyed monthly and quarterly audits will be performed to analyze collection data for program success, efficiency and modification. The Authority will cover any additional, unbudgeted costs as in-kind and plans to continue the program to the extent feasible, based on collection data.

The purpose of these events is to extend HHW services to under-served areas within the Authority's jurisdiction; to reduce potential public health and environmental issues resulting from illegal dumping and/or improper storage of HHW materials and; to utilize the events as an educational opportunity to promote the proper disposal/recycling of HHW materials and notify participants of the existing Sun Street HHW facility and the ABOP Stations at Jolon Road Transfer Station and Johnson Canyon Landfill.

To increase program awareness and participation, residents in the Authority's jurisdiction will be informed through flyers, print ads, radio, email blasts, website information, and/or garbage and recycling bill inserts/newsletters about the opportunity to take their HHW materials to one of the Authority's three sites (2 landfills and 1 transfer station) for free disposal. All public outreach materials and advertisements are provided in Spanish (as well as English) to accommodate the Spanish-speaking population.

These events will be a very important resource and outlet for proper disposal of HHW in the Salinas Valley. Procuring grant funding [in combination with the utilization of Authority infrastructure and resources] will not only expand greatly needed HHW services to the Authority's under-served population, it will significantly reduce the amount of HHW that may otherwise be illegally dumped, improperly stored or buried in the landfill.

Total Awarded for County:\$73,114.00

Orange County

Grantee: City of Laguna Woods

Amount Awarded: \$46,000.00

Grantee Contact: Mr. Douglas C. Reilly

CalRecycle Grant manager: Barbara Baker

Project Summary: The City is seeking funds to promote responsible household hazardous waste management at two collection events, through public education and outreach, and to re-educate a population base that incurs a 20% change over each year. Previous programs have been very successful but participation has been declining. In part we attribute this to our population turn-over (100% senior citizen population).

Total Awarded for County:\$46,000.00

Placer County

Grantee: City of Roseville

Amount Awarded: \$75,000.00

Grantee Contact: Ms. Vicki Reid

CalRecycle Grant manager: Linda Dickinson

Project Summary: This regional application for south Placer County (cities of Auburn and Roseville, Western Placer Waste Management Authority and Placer County) seeks funding to improve awareness and participation in existing HHW programs managed by Placer County and its cities. These programs, as part of the augmented public outreach effort, includes increased participation in the Western Placer Waste Management's Household Hazardous Waste Facility, existing city operated battery recycling drop-off bins (Auburn, Roseville and Placer County), and city operated appointment-based door-to-door HHW programs (Auburn, Roseville and Placer County). Proposed education and outreach includes the addition of HHW webpages to our existing regional website - www.onebigbin.com; a geo-targeted online paid media campaign, paid newspaper ads in Placer County newspapers. Additionally, the campaign will utilize existing e-newsletters, neighborhood association newsletters and utility newsletters to increase public awareness. The goal of the proposed augmented public outreach effort is to increase awareness of these programs and increase overall program participation by 50 percent over the grant period and as a result decrease illegal dumping of these HHW items in the trash.

Total Awarded for County:\$75,000.00

Riverside County

Grantee: City of Indio

Amount Awarded: \$30,000.00

Grantee Contact: Mrs.Sara Toyoda

CalRecycle Grant manager: Barbara Baker

Project Summary: The City of Indio currently receives OPP funds. We use these funds to hold temporary collection events for used oil and oil filters. We would like to use the HD20 funds to include HHW waste to be collected at these events. The funds would allow more material to be collected at the events and may also allow for more collection events.

Grantee: City of Palm Desert

Amount Awarded: \$50,000.00

Grantee Contact: Ms. Frankie Riddle

CalRecycle Grant manager: Barbara Baker

Project Summary: The City's proposed project is to focus on education and outreach. The City plans to accomplish this by utilizing it's At-Home HHW Collection program public service announcements (PSAs) on both English and Spanish local television stations from September 2013 through March 2015. Also proposed are some minor improvement to the facility (i.e. signage and pallet jack), as well as the cost for the 8-hour training for 2013 and 2014.

Grantee: City of Riverside

Amount Awarded: \$50,000.00

Grantee Contact: Ms. Coleen Weeks

CalRecycle Grant manager: Barbara Baker

Project Summary: HHW Public education and outreach by creating informational flyers with an education component for battery and bulb proper and safer disposal with collection activities.

Set-up and operation of temporary HHW facilities one-day collection events for battery & bulbs. Including attendance of required employees at HHW event personnel protection equipment and attendance for 8-hour refresher Hazardous Waste Operations and Emergency Response Standards (HAZWOPER) training. Create opportunity for collection of battery and bulb disposal events for residents to dispose of these items safely at 3-4 annual event collection events within the City of Riverside.

Expand education of City sponsor collection event including Utility inserts, hand outs in addition to manning an information booth at various City sponsor events such as the "Riverside Show & Go", "Mission Inn Run", etc
Update and expand City's website for residents to find easy access for HHW information

Grantee: Riverside County

Amount Awarded: \$50,000.00

Grantee Contact: MS. Kathleen Utter

CalRecycle Grant manager: Barbara Baker

Project Summary: This project is a proposal to purchase two (2) forklifts for use at the Murrieta ABOP and the Lamb Canyon Sanitary Landfill Central Accumulation Facility (CAF). The addition of oil base paint at the ABOP as well as the inclusion of Lamb Canyon Sanitary Landfill approved as a PaintCare drop off location. These forklifts will allow the County to expand services at these collection locations for the PaintCare program as well as provide a safer working environment for both staff and contractor.

Total Awarded for County:\$180,000.00

Sacramento County

Grantee: City of Folsom

Amount Awarded: \$50,000.00

Grantee Contact: Mr. Mark Rappaport

CalRecycle Grant manager: Ashraf Batavia

Project Summary: The project will replace a failing Hazmat Storage Building and resurface the operational area of the Folsom Permanent Household Hazardous Waste Collection Facility. We are revising our Permit by Rule to incorporate the new Hazmat Storage Building. The building is a portable stand alone 24X10X10 metal storage locker rated to store Class 1a and 1b flammable liquids and other hazardous wastes.

Grantee: City of Sacramento

Amount Awarded: \$29,000.00

Grantee Contact: Mr. Doug Huston

CalRecycle Grant manager: Ashraf Batavia

Project Summary: The City of Sacramento proposes three eligible projects relating to education and outreach and to make minor improvements to our PHHWCF. 1) Design and print an educational brochure detailing the City's HHW program including changes to our PHHWCF days of operation that will be sent to all city households and distributed at outreach events. 2) Replace worn fiberglass floor grates with sturdier galvanized steel grating at our PHHWCF. 3) Design, produce, and install three signs at our PHHWCF.

Total Awarded for County:\$79,000.00

San Bernardino County

Grantee: City of Fontana

Amount Awarded: \$50,000.00

Grantee Contact: Mr. Chuck Hays

CalRecycle Grant manager: Annabel Farrall

Project Summary: The proposed project is to purchase and install an 85' x 55'x 15' metal awning to cover the City's Household Hazardous Waste Collection area. The area currently has a smaller canopy which covers less than a quarter of the collection area. The larger awning will improve program service by enabling the HHW collection facility to remain open during inclement weather. The awning will also provide cover for equipment and materials enabling the City to improve compliance with our stormwater NPDES permit.

Grantee: City of Ontario

Amount Awarded: \$45,767.00

Grantee Contact: Ms. Bonnie Butler

CalRecycle Grant manager: Annabel Farrall

Project Summary: The City of Ontario proposes a comprehensive educational and outreach program to increase the residents participation at the HHW Facility. The City also proposes safety improvements to the HHW facility and 8 Hour Hazwoper training for two employees

Grantee: City of Redlands

Amount Awarded: \$37,007.00

Grantee Contact: Mr. Jeff Frazier

CalRecycle Grant manager: Annabel Farrall

Project Summary: PROJECT SUMMARY/STATEMENT OF USE:

PROGRAM BACKGROUND AND CONTEXT:

The City of Redlands through the Redlands Fire Department operates a weekly Household Hazardous Waste Collection site. The site is functional for four (4) hours every Saturday (Weather and Holidays permitting) This site is operational year round and enjoys considerable use by our community. Often times, a line of conscientious residents wait around the block to recycle their domestic waste materials. We collect approximately 9,000 to 10,000 pounds of Household Hazardous Waste and 7,500 pounds of E-Waste per month. The area of Redlands includes 24,764 households.

PROJECT DESCRIPTION AND NEED:

Our request consists of two primary projects. Security and Comfort/Safety.

SECURITY: One of our concerns is the unauthorized and/or properly documented dumping of materials when our recycling location is not open. We routinely find un-labeled materials left at the site which present a threat to the public until properly contained and processed and present a hazard to our first responders who must deal with these undefined materials on an emergency basis. In order to provide greater security and encourage lawful disposal of materials, we are seeking funding for a state-of-the-art security camera system to monitor the recycling location. The camera system suggested would include intrusion detection system based on built-in video analytics. Once triggered, it will immediately notify on-duty Redlands Police Dispatch personnel. These personnel can actively monitor the situation on displays within the Redlands Police Dispatch Center. If needed, Police dispatchers can interact via a two way public address audio system to alert the potential violator of the proper procedures for disposing of materials. This two way audio system has proven very effective in other areas of the City in preventing violations and encourages lawful behaviors. It is our hope that by simply reminding individuals about to improperly dump materials of the proper procedure we will facilitate uses of the Household Hazardous Waste Recycling site in the manner it was intended. In cases where the individual chooses to illegally dump materials, we will have critical identification information to properly follow-up with violators.

COMFORT / SAFETY: Because Redlands is located in inland Southern California; we routinely experience very high daytime temperatures from late spring to well into the fall months. Temperatures routinely break the 100°F mark and present what can be uncomfortable and even dangerous conditions for those working outside. With this in mind we are seeking funding for items to make the experience for our residents and our operators more pleasant and safe. Items requested to facilitate this include a evaporative cooler, EZ-up, chairs, and a generator. These items will allow both the operators and our residents recycling materials to function in an environment which is a little more hospitable for their recycling activity. We are hopeful that by making the experience more pleasant for our residents we will encourage greater compliance. Clearly, the operators who must staff this location for 4 hours will maintain cooler body temperatures and be able to function more safely and efficiently. Not to mention in a better frame of mind.

Project Goals

We are hopeful that by making the experience more pleasant for our residents we will encourage greater compliance. Clearly, the operators who must staff this location for 4 hours will maintain cooler body temperatures and be able to function more safely and efficiently. Not to mention in a better frame of mind.

Grantee: San Bernardino County

Amount Awarded: \$50,000.00

Grantee Contact: Ms. Monica Ronchetti

CalRecycle Grant manager: Annabel Farrall

Project Summary: San Bernardino County HHW Program will use majority of grant funds to promote through advertising, availability of Household Hazardous Waste (HHW) collections at permanent facilities closest to areas losing Temporary Household Hazardous Waste Collection Facility services (Adelanto, Helendale, Morongo Basin/29 Palms, Lake Arrowhead, Colton, Grand Terrace, Highland) . Reduction in amounts of several revenue sources has resulted in loss of budget for Temporary Collection Facilities and general HHW advertising. A small portion of awarded funds will be used to augment staffing at permanent facilities that experience resulting increased participation.

Total Awarded for County:\$182,774.00

San Diego County

Grantee: San Diego County

Amount Awarded: \$50,000.00

Grantee Contact: Ms. Melissa Porter

CalRecycle Grant manager: Barbara Baker

Project Summary: The County of San Diego, Department of Environmental Health (DEH), Household Hazardous Waste (HHW) program proposes to conduct a one-day, temporary HHW collection facility (THHWCF) with the grant funds. DEH proposes to conduct the THHWCF in the Elfin Forest / Harmony Grove / Del Dios area of unincorporated County of San Diego, an area not well served by the few permanent HHW facilities available to unincorporated residents. A HHW grant of \$50,000 would allow DEH to conduct a THHWCF for approximately 500 unincorporated residents.

Total Awarded for County:\$50,000.00

San Mateo County

Grantee: San Mateo County

Amount Awarded: \$50,000.00

Grantee Contact: Mr. Wesley Won

CalRecycle Grant manager: Linda Dickinson

Project Summary: The County of San Mateo operates well established HHW events throughout the San Mateo County with 8 temporary HHW events, monthly satellite HHW events, along with 1 permanent facility which operates 3 times per week along with 2 times per month for CESQG. The permanent facility is dire need of new asphalt paving as the asphalt is cracking which may cause either household hazardous waste seepage into the earth beneath the asphalt and/or sprained ankles for employees. Slurry coating to reseal the asphalt is NOT an option as the existing asphalt is beyond maintenance and has been recommended to have it re-asphalted. Having the facility re-asphalted would ensure that we operate on an "continuous base, free of cracks and sufficiently impervious" which is a requirement for a permanent HHW facility.

Total Awarded for County:\$50,000.00

Santa Clara County

Grantee: Santa Clara County

Amount Awarded: \$75,000.00

Grantee Contact: Mr. Rob D'Arcy

CalRecycle Grant manager: Linda Dickinson

Project Summary: Our grant project will focus on two areas: innovative public outreach and minor improvements to our permanent household hazardous waste (HHW) facilities. Grant funds will be used to create 3 whiteboard animation videos. The videos will focus on the proper disposal of HHW, paint, and fluorescent lamps and batteries. Grant funds will also be used to purchase a table cloth to be used at public outreach events.

Our new facility opening July 1, 2013 in San Jose will need a forklift to move drums and boxes. Replacement signs and a canopy are needed for our San Martin facility. All these improvements will make the HHW collection events easier to operate especially during the rainy season with the canopy.

Total Awarded for County:\$75,000.00

Santa Cruz County

Grantee: Santa Cruz County

Amount Awarded: \$16,665.00

Grantee Contact: Mr. Kasey Kolassa

CalRecycle Grant manager: Linda Dickinson

Project Summary: A public education and outreach campaign will generally promote the HHW programs operating throughout the county with a special emphasis on common and universal waste products such as fluorescent lamps, paint, batteries, e-waste, sharps, pharmaceuticals, and motor oil. In addition to HHW facility drop-off, other safe and environmentally sound disposal options will be promoted including retail take-back and non-profit drop-off.

Minor facility improvements at 3 permanent HHW facilities will include a secondary containment berm, extension of a facility roof, and a replacement used oil collection tank.

Total Awarded for County:\$16,665.00

Stanislaus County

Grantee: City of Modesto

Amount Awarded: \$50,000.00

Grantee Contact: Ms. Michele Beck

CalRecycle Grant manager: Ashraf Batavia

Project Summary: The City of Modesto proposes to do 3 mobile collection events in 3 different neighborhoods each year during the 2 year grant cycle. These neighborhoods have been previously identified to have a high rate of illegal dumping. Additionally we will develop public educational brochures and perform outreach on the necessity of disposing of Household Hazardous Waste appropriately.

Total Awarded for County:\$50,000.00

Tehama County

Grantee: Tehama County Sanitary Landfill Agency

Amount Awarded: \$74,391.00

Grantee Contact: Mrs.Kristina Miller

CalRecycle Grant manager: Matthew Fong

Project Summary: The goals of the Tehama County Sanitary Landfill Agency 20th Cycle Household Hazardous Waste grant are to:

1. Hold at least one temporary collection event in an outlying area not in close proximity to existing permanent hhw facilities in the County.
2. Develop a fluorescents, battery, and general HHW outreach campaign including signage, brochures, radio advertising, point-of-sale advertising, interviews with local media, opinion-editorial pieces, and person-to-person outreach.
3. Develop a school outreach campaign to include development of displays for the mobile 4R Kids Exhibit and conduct at least 10 school tours of the exhibit.
4. Survey local school teachers and administration to determine the level of household hazardous waste awareness and appropriate outreach mediums.

Total Awarded for County:\$74,391.00

Trinity County

Grantee: Trinity County

Amount Awarded: \$11,807.00

Grantee Contact: Cathie Rash

CalRecycle Grant manager: Matthew Fong

Project Summary: Trinity County Solid Waste would like to provide education to the public about what is hazardous waste and how to dispose of their hazardous waste properly. We would like to also provide more frequent training to our employees, provide them with enhanced individual personal protective equipment (PPE) and have a more accessible hazardous waste spill kit for each site.

Total Awarded for County:\$11,807.00

Tuolumne County

Grantee: Tuolumne County

Amount Awarded: \$30,000.00

Grantee Contact: Ms. Belinda Barlow

CalRecycle Grant manager: Matthew Fong

Project Summary: To provide some shelter for our staff at the HHW facility and to purchase supplies, and PPE for the HHW facility. To increase the outreach to the community through radio, internet and newspaper advertising. To print brochures about the HHW facility. To pay for staff to attend 8 hr. HAZWOPER training in March of 2014 and March of 2015. To secure the store containers at one of the RHHW facilities to prevent further vandalism and theft. To purchase signs for the RHHW facility.

We strive to increase awareness of our permanent HHW facility and to make minor improvements to the facility to increase efficiency and protect staff.

Total Awarded for County:\$30,000.00

Yolo County

Grantee: Yolo County

Amount Awarded: \$67,500.00

Grantee Contact: Ms. Marissa Juhler

CalRecycle Grant manager: Ashraf Batavia

Project Summary: Yolo County plans to create an educational outreach campaign to increase participation in its PHHWF, CESQG and Senior/Disbaled Door-to-Door programs.

Total Awarded for County:\$67,500.00

Grant Count: 33

Grand Total for Selected Counties: \$1,500,000.00
